**Ronnie Simon:** Happy New Year and Welcome to the last WWNC 2006 Checkpoint meeting

FrankFromPdaSoft has joined this chat.

**Ronnie Simon:** hi frank

20:00

udog124 has joined this chat.

grantsplorp has joined this chat.

**grantsplorp:** howdy.

**FrankFromPdaSoft:** hi, all

**udog124:** hey

**Ronnie Simon:** hello everyone

**Ronnie Simon:** there are 4 of us in the meeting

**Ronnie Simon:** oops plus me

**Ronnie Simon:** any comments on the agenda ?

**Ronnie Simon:** i have seen larry's

**Ronnie Simon:** sorry still waiting for adam

**grantsplorp:** i am fine with the agenda.

**udog124:** looks good

**FrankFromPdaSoft:** Agenda sounds good to me. Makes me wish I could be there.

**udog124:** me 2 🙄

**Ronnie Simon:** i would have liked to see one more presentation topic for better balance

**Ronnie Simon:** and we do need to assign names to candidate workshop topics

**grantsplorp:** maybe one of the 'workshops' will turn into a presentation of sorts.

**Ronnie Simon:** we can do the latter at the time

**FrankFromPdaSoft:** get me a ticket, and I'll do a hardware presentation 😊

20:05

**Ronnie Simon:** ok i shall add larry's comments and send it to the board as final version for grant and david to circulate

**grantsplorp:** ok.

**udog124:** righto

**Ronnie Simon:** if i had walter smith's and the other chap's email id i can confirm their slot as well

**grantsplorp:** we can add a small note to the schedule stating that last minute changes may occur.

**grantsplorp:** just to be safe.

**Ronnie Simon:** good idea

**Ronnie Simon:** ok anything else on the agenda ?

**Ronnie Simon:** before we move on

**grantsplorp:** i don't think so.

**Ronnie Simon:** ??

**udog124:** one nice preso would be how to convert ical to newton pkg like victor developed...i would definitely do that one if i were coming

**udog124:** sounds like you just have to run the ical through a perl script, then run it through some ntk mumbo jumbo

**Ronnie Simon:** good idea, but for me converting a simple text file in the wiki format is more useful

**udog124:** maybe i can do it via ichat video call 😊

**Ronnie Simon:** adam confirmed that although we will have internet access, it will not be good enough to support

**Ronnie Simon:** an e-meeting

**FrankFromPdaSoft:** I don't think that running something through Perl and NTK is going to be widely

accepted by Newton users.

20:10

**Ronnie Simon:** i agree

**Ronnie Simon:** ok next topic posters

**Ronnie Simon:** i would like to have an a3 or b3 size poster in the hotel

**Ronnie Simon:** what is the best way to achieve this ?

**FrankFromPdaSoft:** i would like to have an a3 or b3 size poster in my workroom 😊

**FrankFromPdaSoft:** if there's more than one 😊

**grantsplorp:** are these posters for each topic?

**Ronnie Simon:** i was hoping adam could help here

**grantsplorp:** or a single poster with the entire schedule?

**Ronnie Simon:** the latter and a generic wwnnc 2006 logo type poster

**Ronnie Simon:** or combined

**grantsplorp:** i vote combined.

**Ronnie Simon:** i agree

**grantsplorp:** well, maybe not...

**Ronnie Simon:** ?

**FrankFromPdaSoft:** Better use an eyecatcher and put the schedule in fine print at the bottom

**FrankFromPdaSoft:** put...

**grantsplorp:** a generic wwnnc poster would be good for directional wayfinding too.

**grantsplorp:** yes.

**Ronnie Simon:** good point

**grantsplorp:** i can layout a post to that size and print it prior to flying down...

**grantsplorp:** or we can use a quickprint shop close to the hotel.

**grantsplorp:** most of those shops will take a zip disk or cd with a pdf on it.

**Ronnie Simon:** the former is more manageable and the latter is a good backup

**FrankFromPdaSoft:** You are still using zip disks?

20:15

**Ronnie Simon:** If you sent me the pdf, i can also bring some with me

**grantsplorp:** zip. yep. once in a while.

**grantsplorp:** good idea ronnie.

**grantsplorp:** when should we sign off on the final schedule?

**Ronnie Simon:** so who is going to volunteer to produce the pdf ?

**grantsplorp:** i will do the pdf.

**Ronnie Simon:** i think we have just done it

**Ronnie Simon:** i will send you the final version within 15 mins of the end of this meeting

**grantsplorp:** the only thing about the schedule that has yet to be decided is the friday evening thing.

**grantsplorp:** ok ronnie. tnx.

**Ronnie Simon:** i was hoping adam could suggest something here and we update the website

**FrankFromPdaSoft:** Make sure that everyone is aware where and when the informal get-together is going to take place. That left a bit to be desired in Paris.

**grantsplorp:** adam's ichat status just went available.

**Ronnie Simon:** i agree

**grantsplorp:** ping him again.

**Ronnie Simon:** ok i have done

**Ronnie Simon:** so who is going to produce the pdf ?

**Ronnie Simon:** grant just saw your response, thx

**Ronnie Simon:** next topic ...

20:20

**Ronnie Simon:** We have an opportunity to secure a website address before it is grabbed by someone else, but the wwna does not have a policy on this area

**Ronnie Simon:** what should we do ?

**Ronnie Simon:** frank know the website

**FrankFromPdaSoft:** Secure it. By the way...

**FrankFromPdaSoft:** we are talking of newtsync.com

**grantsplorp:** ah...

**FrankFromPdaSoft:** It is not sure yet...

**FrankFromPdaSoft:** if it is available...

**FrankFromPdaSoft:** but someone at NewtonTalk reported...

**FrankFromPdaSoft:** it might be soon. I'm finished.

**Ronnie Simon:** any comments on doing this sort of thing ?

**Ronnie Simon:** is it a good idea ?

**FrankFromPdaSoft:** I think it is...

**Ronnie Simon:** ?

**FrankFromPdaSoft:** the question is...

**grantsplorp:** the domain does not expire until december 2006.

**FrankFromPdaSoft:** does the WNA have enough personality...

**FrankFromPdaSoft:** to officially reserve a domain?

**Ronnie Simon:** what do you mean by personality ?

**FrankFromPdaSoft:** Well...

**FrankFromPdaSoft:** I, as a person, can reserve a domain in ten seconds...

**FrankFromPdaSoft:** but the WNA isn't a person.

**Ronnie Simon:** we can have a person take on that responsibility

**Ronnie Simon:** the question is, should we be doing this ?

**FrankFromPdaSoft:** I see. Would we have to elect someone? Does Ronnie do it? The secretary? Provided, of course, we want to do it?

20:25

**grantsplorp:** one question would be: why do we need another domain.

**Ronnie Simon:** anyone can do it on behalf of the wwna, it just needs to be an agreed policy

**grantsplorp:** we already have a site.

**grantsplorp:** is this for easier access to association information?

**grantsplorp:** i know the current address is rather cumbersome.

**FrankFromPdaSoft:** Could you give me a minute or two without interruption?

**Ronnie Simon:** are you saying we move the content on to a different site ?

**Ronnie Simon:** go ahead frank

**FrankFromPdaSoft:** I am asked with increasing frequency...

**FrankFromPdaSoft:** by people...

**FrankFromPdaSoft:** why they should join the WNA...

**FrankFromPdaSoft:** because they think it's not doing anything for them...

**FrankFromPdaSoft:** I have increasing problems...

**FrankFromPdaSoft:** answering this...

**FrankFromPdaSoft:** so I had the idea...

**FrankFromPdaSoft:** that we could do something...

**FrankFromPdaSoft:** that doesn't cost much...

**FrankFromPdaSoft:** isn't that much work...

**FrankFromPdaSoft:** and still beneficial to the Newton community...

**FrankFromPdaSoft:** like grabbing Netwon-related domain names...

**FrankFromPdaSoft:** when they become available...

**FrankFromPdaSoft:** and trying to keep the old content where it is...

**FrankFromPdaSoft:** otherwise these sites have been known...

**FrankFromPdaSoft:** to bring the interested surfer...

**FrankFromPdaSoft:** to some porn site...

**FrankFromPdaSoft:** or if you are lucky to a site that doesn't have anything to do with what it used to be.

**FrankFromPdaSoft:** I'm finished.

**grantsplorp:** ok, this makes more sense.

**grantsplorp:** thank you frank.

**Ronnie Simon:** sorry how do i reinvoke adam ?

**udog124:** i'll do it

**Ronnie Simon:** or remove him from the meeting to re-invite

**Ronnie Simon:** great

**udog124:** should be here any sec

20:30

**udog124:** still showing him as invited at the moment

**Ronnie Simon:** that's the problem

**Ronnie Simon:** i cannot delete him

**udog124:** hmm. i never showed him as in the meeting

adamtow95 has joined this chat.

**grantsplorp:** there he is!

**udog124:** there we go

**Ronnie Simon:** success

**adamtow95:** Sorry guys

**adamtow95:** so, where are we?

**FrankFromPdaSoft:** Glad you are here finally 😊

**Ronnie Simon:** adam we are trying to see whether securing the newtsync or equivalent website should be taken on by the wwna and allocated to a person

**Ronnie Simon:** what's the consensus so far on this ?

**FrankFromPdaSoft:** I'm all for it.

**FrankFromPdaSoft:** I offer to be that person if it is legally possible

**Ronnie Simon:** how much does this typically cost ?

**adamtow95:** newtsync = john andersen's program?

**FrankFromPdaSoft:** Depends a bit on the hoster and on the download frequency.

20:35

**FrankFromPdaSoft:** Minimum of a dollar a year just to secure it I'd think.

**FrankFromPdaSoft:** Adam, yes, we are talking of John's program

**grantsplorp:** price depends on the registrar.

**grantsplorp:** quality of the registrar depends on price.

**Ronnie Simon:** when do we need to make a decision on this ?

**grantsplorp:** lower price != good quality

**adamtow95:** why are we talking about this for the WWNC? Hasn't he not updated it in years?

**Ronnie Simon:** can we do an email vote ?

**FrankFromPdaSoft:** Adam, I asked for this to be put on the agenda to make sure the domain isn't grabbed by someone else.

**FrankFromPdaSoft:** As for eMail vote, that's OK by me.

**adamtow95:** ok, I see

**Ronnie Simon:** within the next 3 weeks

**FrankFromPdaSoft:** 3 weeks is too long.

**FrankFromPdaSoft:** As soon as a porn site is on the waiting list, it's theirs.

**adamtow95:** so, the expiration date was on the 16th.

**Ronnie Simon:** i thought it died in december 2006

**adamtow95:** who has the lock on it right now? john?

**FrankFromPdaSoft:** No idea. I could try to work this out with him.

**Ronnie Simon:** ok, send out the suggestion as an email vote with the costs involved in taking on the decision and the person who would handle it, and we can email vote on it

**Ronnie Simon:** is that ok ?

**grantsplorp:** the domain expired this past december. the domain is locked through godaddy (the registrar) until next december. there is a grace period where the previous owner can still renew.

**grantsplorp:** fine with me, ronnie.

**Ronnie Simon:** are you happy to do that frank ?

**FrankFromPdaSoft:** OK with me. Do YOU send out the suggestion, Ronnie?

**grantsplorp:** i agree that this is an important thing to consider, but we should get back on task  
re: wwnr

**Ronnie Simon:** no you can do it frank

**FrankFromPdaSoft:** OK

20:40

**Ronnie Simon:** the board will just vote on it

**Ronnie Simon:** given all the facts

**Ronnie Simon:** have we finished this topic ?

**Ronnie Simon:** ?

**FrankFromPdaSoft:** I think we have

**Ronnie Simon:** ok next topic

**Ronnie Simon:** adam we need a venue for the friday evening, any ideas ?

**Ronnie Simon:** we need to communicate this asap

**Ronnie Simon:** adam ?

**adamtow95:** I've asked the hotel for recommendations on nightlife around the hotel

**adamtow95:** they should get back to me within the day

**Ronnie Simon:** ok we need an initial meeting point

**adamtow95:** of course

**Ronnie Simon:** fyi the rest of the agenda has been formalised

**grantsplorp:** i would suggest that we could meet at the hotel. lobby perhaps? not sure the size.

**adamtow95:** the hotel is very small

**Ronnie Simon:** do you have any comments ?

**grantsplorp:** ok, adam.

**Ronnie Simon:** we will have roughly 30 people max ?

**adamtow95:** that might be too much for the hotel lobby

20:45

**Ronnie Simon:** we can go with another suggestion

**Ronnie Simon:** i also passed on your information regarding internet bandwidth and the difficulty in holding an e-meeting or live blog

**Ronnie Simon:** any other comments

**Ronnie Simon:** adam ?

**adamtow95:** comments on what?

**Ronnie Simon:** either the agenda program or the internet

**Ronnie Simon:** if not we can move on

**adamtow95:** can someone send me the finalized agenda? or was that in the previous email to the list?

**Ronnie Simon:** it was in the previous email

**Ronnie Simon:** i am happy to contact walter smith and the other chap, if someone can send me their email ids

**Ronnie Simon:** i will contact larry for this info otherwise

**Ronnie Simon:** new topic ?

**FrankFromPdaSoft:** yep...

**adamtow95:** regarding the agenda

**Ronnie Simon:** go on

20:50

**adamtow95:** nevermind, I have no problem with it

**Ronnie Simon:** good

**Ronnie Simon:** ok next topic ...

**Ronnie Simon:** on sunday we have a wwna meeting slot

**Ronnie Simon:** i would like to explain why members should renew

**Ronnie Simon:** can you give me some reasons now ...

**FrankFromPdaSoft:** It's good to be organized...

**FrankFromPdaSoft:** we organize WWNCs...

**FrankFromPdaSoft:** that's all I can think of at the moment, I'm afraid...

**grantsplorp:** you eventually get a dvd of something... 🙄

**FrankFromPdaSoft:** then again, you get a free memory card if you join...

**FrankFromPdaSoft:** but not if you renew 🙄

**Ronnie Simon:** you will fund the distribution of rare newton content dvds

**FrankFromPdaSoft:** Will there be a DVD of the SF meeting? Just kiddin'...

**Ronnie Simon:** grant has the answer on this question

**grantsplorp:** maybe. possibly.

**grantsplorp:** if i have time to finish the front end and burn a prototype.

**grantsplorp:** fingers crossed.

**Ronnie Simon:** why do we need a dvd if you can download from a website ?

**FrankFromPdaSoft:** has anybody thought of the necessity of checking every file of the rare Netwon DVDs for copyright issues?

**Ronnie Simon:** frank i have noted this to be discussed at the next meeting

20:55

**FrankFromPdaSoft:** sorry, I wasn't aware of that.

**grantsplorp:** frank, i think that's a case of 'act first' and 'apologize later'.

**grantsplorp:** speaking of dvds...

**FrankFromPdaSoft:** Grant, I politely disagree. But since we will discuss this next time...

**Ronnie Simon:** ok anymore triggers for membership renewal ?

**grantsplorp:** i politely accept your disagreement.

**grantsplorp:** 🙄

**FrankFromPdaSoft:** not from my end. anymore triggers, I mean.

**grantsplorp:** i would like to think that wwna is proactive in the case of archiving content and saving newton historical documents and technical items.

**grantsplorp:** we're not quite there yet... but we certainly mean well.

**Ronnie Simon:** ok i shall send this out as an email request to capture other points and use it at the conference to support a discussion

**Ronnie Simon:** we shall cover this at the next meeting scheduled for thurs january 26th

**FrankFromPdaSoft:** OK

**Ronnie Simon:** new topic ?

**grantsplorp:** i have one...

**Ronnie Simon:** go on

**grantsplorp:** sort of related to the conference schedule.

**grantsplorp:** john venzon (newton museum) was distributing his dvd of newton video clips to sme list members.

**grantsplorp:** sme = some

**grantsplorp:** would the videos on that disc be interesting enough to show as a topic within the conference?

**grantsplorp:** as one of the sessions? or during a break?

**grantsplorp:** just a thought.

21:00

**FrankFromPdaSoft:** good idea

**grantsplorp:** we were looking for another slot-filler on sunday.

**Ronnie Simon:** it is a good idea in one of the workshops

**Ronnie Simon:** but who will have this before the conference ?

**grantsplorp:** not sure.

**Ronnie Simon:** he has sent a set to me, but it may not arrive in time

**grantsplorp:** he is based in LA, isn't he?

**grantsplorp:** i could ask him to send one to me attn: the hotel.

**grantsplorp:** i can pick up the shipping charges.

**Ronnie Simon:** go for it

**grantsplorp:** i'll ask and see.

**Ronnie Simon:** new topic ?

**Ronnie Simon:** or end of meeting ?

**grantsplorp:** i'm done.

**adamtow95:** I need to give a headcount to the hotel

**adamtow95:** right now, we're just under 30 people registered

**adamtow95:** what plans do we have to do a last minute push to get people to come to the conference?

**FrankFromPdaSoft:** hand out flyers at MacWorld...

**grantsplorp:** we were going to do another pr email.

**Ronnie Simon:** i know some people are just going to turn up who are not registered

**Ronnie Simon:** for example woo lee

**adamtow95:** and who is handing out flyers at MacWorld?

**adamtow95:** Where is the PR being sent to?

**udog124:** yes, another pr blast as soon as agenda is finalized

**FrankFromPdaSoft:** Do we know how many, if any, press people will attend?

**adamtow95:** Did it ever show up on Macintouch, MacCentral, MacMinute, etc.?

**udog124:** i know of 2 so far who explicitly contacted me

**adamtow95:** The big Mac sites

21:05

**udog124:** i sent it there adam

**adamtow95:** not the international ones

**udog124:** i mean us

**udog124:** usa

**udog124:** they'll receive it again for the final one

**grantsplorp:** we have dennis sellers of maccentral attending.

**Ronnie Simon:** i informed the uk press

**udog124:** macintouch, maccentral, macaddict, thinksecret, macnn, ...

**Ronnie Simon:** i was going to forward david's press info again to them, to ensure an article writeup

**adamtow95:** ok

**udog124:** wait until i have the final rev

**Ronnie Simon:** macuser and mac format

**udog124:** with the schedule

**adamtow95:** as long as the PR gets out

**grantsplorp:** yes, the pr email list covers all of the major mac mags and sites.

**udog124:** no worries there adam

**udog124:** 😊

**adamtow95:** some of these sites use webforms

**adamtow95:** for PR submissions

**Ronnie Simon:** handing out flyers at macworld ...

**udog124:** yes, and those i did manually

**adamtow95:** ok

**Ronnie Simon:** who is going to this event ?

**Ronnie Simon:** i have a free exhibit ticket, but i will not arrive until friday

**grantsplorp:** same here.

**Ronnie Simon:** any other press questions ?

**grantsplorp:** perhaps we can post a few of the posters around moscone if there are public boards.

**adamtow95:** I don't know when I'll be going to MW... probably on Friday as well

**Ronnie Simon:** we can use grant's pdfs to print out and handout ?

**grantsplorp:** sure. i can put together a flyer-sized version with basic information.

21:10

**grantsplorp:** one other thing to remember...

**Ronnie Simon:** go on

**grantsplorp:** if we have walk-up attendees...

**adamtow95:** How effective will handing out flyers be

**grantsplorp:** some one will need to collect fees.

**grantsplorp:** etc.

**grantsplorp:** adam, probably not very...

**udog124:** i think paul is, right? treasurer...

**grantsplorp:** my opinion.

**Ronnie Simon:** place them on public boards

**grantsplorp:** i need to run folks...

**Ronnie Simon:** i can take money

**grantsplorp:** later.

**adamtow95:** bye, grant

**grantsplorp:** bye.

**FrankFromPdaSoft:** bye.

**udog124:** bye

**Ronnie Simon:** bye grant

**adamtow95:** I think we need a meeting on monday

grantsplorp has left this chat.

**adamtow95:** to go over last-second stuff

**udog124:** ronnie, do you have the final agenda? if so, please e-mail it to me so i can finalize the pr

**Ronnie Simon:** i'm happy to do that, but Monday is not good for me

**adamtow95:** sometime in the next 5 days

**udog124:** and get it out tomorrow

**Ronnie Simon:** ok, i will sort out my monday appointment

**Ronnie Simon:** i will send the updated agenda out very shortly

**udog124:** k thanks

**adamtow95:** PR should go out tomorrow at the earliest and Monday at the latest

**udog124:** roger that

**adamtow95:** no one reads on the weekends

**Ronnie Simon:** any other topics now, or leave it until monday ?

**adamtow95:** and by tomorrow, I mean this evening

**udog124:** shooting for tomorrow or even tonight

**udog124:** right

**adamtow95:** so the sites can have it posted by tomorrow

**Ronnie Simon:** i agree

**udog124:** will do

**Ronnie Simon:** can we have the friday venue agreed by monday as well ?

21:15

**Ronnie Simon:** shall we formally end ?

**adamtow95:** the hotel recommends their own restaurant

**FrankFromPdaSoft:** surprise...

**Ronnie Simon:** that should not hold us back

**adamtow95:** but looking at their prices for hor d'oeuvres, it can be pricy

**adamtow95:** I wouldn't mind having it there

**adamtow95:** but people do have to expect to pay something 😊

**Ronnie Simon:** friday is self-funding in the main ?

**adamtow95:** yes

**Ronnie Simon:** with some in itial drinks and refreshments paid for only ?

**adamtow95:** Ok

**adamtow95:** I say do it in the hotel bar

**adamtow95:** and I'll look up prices for the hor 'doeuvres

**Ronnie Simon:** we can do this at any location, we just need a suitable location

**Ronnie Simon:** ok, meet in the local bar, eat somewhere else

**adamtow95:** Executive decision, the hotel

**Ronnie Simon:** i do not like hotel food, it is generally poor value

**Ronnie Simon:** is there not a nearby restaurant ?

**adamtow95:** Meet at the bar, decide food later

21:20

**adamtow95:** that's my recommendation

**adamtow95:** since we don't know the exact number coming to the friday night party

**Ronnie Simon:** no, we need a place to take a group of 15 or so people

**Ronnie Simon:** they will need some notice

**adamtow95:** I can't make any reservations at any restaurant

**Ronnie Simon:** can we add a flag to the website to indicate friday attendance ?

**adamtow95:** I think that's too much work.. friday should be informal

**Ronnie Simon:** otherwise we just be dynamic on the night

**udog124:** you should be fine falling in somewhere, being close to chinatown, fisherman's wharf, etc....

**Ronnie Simon:** good

**Ronnie Simon:** i for one can eat anything cooked well

**udog124:** i think if you just go with adam's suggestion (meet at the hotel bar for a drink, then fall in

somewhere for dinner), you'll be fine

**Ronnie Simon:** great

**Ronnie Simon:** anything else to be discussed ?

**Ronnie Simon:** before i work on the agenda

**adamtow95:** we will have a projector

**adamtow95:** that I'm supplying

21:25

**adamtow95:** what other av needs do we need?

**Ronnie Simon:** flipchart stand

**adamtow95:** a kiosk computer?

**adamtow95:** are you supplying the flip chart?

**adamtow95:** the hotel has a stand

**Ronnie Simon:** do they not provide the paper ?

**Ronnie Simon:** i can supply the pens

**adamtow95:** I just emailed the hotel about the paper

**udog124:** i say convert the presentations to ezpresenter, stick 'em on newton memory cards, and run the presentations with the newt and an ez2vga card! 🤪

**Ronnie Simon:** otherwise a local purchase

**adamtow95:** david, will you be attending?

**Ronnie Simon:** almost david

**udog124:** i wish adam

**udog124:** i've got a commitment here on sunday, and i live on the east coast - it's not quite doable

**adamtow95:** ok

**Ronnie Simon:** but what is easier is to use laptops for the presentations and the ez2vga card for the demonstrations

**adamtow95:** do we need a kiosk computer?

**adamtow95:** or just everyone bring their own computer

**Ronnie Simon:** this worked well in paris

**Ronnie Simon:** how would we use the kiosk computer ?

**adamtow95:** general browsing, doing demos, etc.

**adamtow95:** just asking... if we're okay with individual laptops, I'm fine

**Ronnie Simon:** i think the flipchart stand can be used for public information, and we use owners laptops for thje presentations

**adamtow95:** less stuff for me to schlep to the hotel

**Ronnie Simon:** if we can get hold of a machine great

21:30

**Ronnie Simon:** any ideas ?

**Ronnie Simon:** do they have a presentation screen

**adamtow95:** yes, they have a screen

**Ronnie Simon:** for use with the projector

**Ronnie Simon:** good

**adamtow95:** I would have brought an old powermac, but because the parking situation is always an adventure, I don't envy the idea of dragging my computer across town

**Ronnie Simon:** can wed put things on the walls

**adamtow95:** so I vote for laptops only

**Ronnie Simon:** i agree

**adamtow95:** I believe so for the walls

**Ronnie Simon:** demonstrators use their own machines

**adamtow95:** Ok, those are all my questions then

**Ronnie Simon:** great

**Ronnie Simon:** i shall send out a meeting notice for monday and send the logs to the other board members

**Ronnie Simon:** thanks gents, until monday

**adamtow95:** ok

**Ronnie Simon:** bye david

**Ronnie Simon:** bye adam

**adamtow95:** bye

adamtow95 has left this chat.

**udog124:** see ya

udog124 has left this chat.
